PROXY STATEMENT
FOR
ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD JUNE 11, 1997

This Proxy Statement is furnished to stockholders of Dave & Buster's Inc., a Missouri corporation (the "Company"), in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Annual Meeting of Stockholders to be held on June 11, 1997, and at any and all adjournments or postponements thereof. Proxies in the form enclosed will be voted at the meeting, if properly executed, returned to the Company prior to the meeting and not revoked. The proxy may be revoked at any time before it is voted by giving written notice to the Secretary of the Company.

This Proxy Statement and accompanying form of proxy are being mailed to the Company's stockholders on or about May 12, 1997. The Company's Annual Report, covering the Company's 1996 fiscal year, is enclosed herewith but does not form any part of the materials for solicitation of proxies.

ACTION TO BE TAKEN AT THE MEETING

Only holders of record of common stock at the close of business on May 7, 1997 (the "Record Date") are entitled to notice of, and to vote at, the Annual Meeting. At the close of business on the Record Date, the Company had issued and outstanding, and entitled to vote at the Annual Meeting, approximately 7,268,056 shares of common stock. The presence, either in person or by properly executed proxy, of the holders of record of a majority of the common stock outstanding on the Record Date is necessary to constitute a quorum at the Annual Meeting.

At the Annual Meeting, holders of the Company's common stock will consider and vote for the election of James W. Corley, Peter A. Edison and Mark B. Vittert to a three year term as directors of the Company. Should any nominee become unable or unwilling to accept nomination or election, the proxy holders may vote the proxies for the election in his stead of any other person the Board of Directors may recommend. Each nominee has expressed his intention to serve the entire term of three years for which election is sought.

Holders of record of common stock are entitled to one vote per share. The election as a director of each nominee for election as a director requires the affirmative vote of the holders of record of a plurality of the outstanding voting power of the shares of common stock represented, in person or by proxy, at the Annual Meeting.

4

The accompanying proxy, unless the stockholder otherwise specifies in the proxy, will be voted (i) for the election to a three year term as directors of the Company of the three nominees set forth above; and (ii) at the discretion of the proxy holders on any other matter that may properly come before the meeting or any adjournment thereof. Where stockholders have appropriately specified how their proxies are to be voted, they will be voted accordingly. Abstentions will be included in vote totals and, as such, will have the same effect on any proposal other than the election of directors as a

negative vote. Broker non-votes will not count for or against the matters to be voted on at the Annual Meeting.

If any other matter or business is brought before the meeting, the proxy holders may vote the proxies in their discretion. The directors do not know of any such other matter or business.

EMPLOYMENT AGREEMENTS; STANDSTILL

In June 1995, Edison Brothers consummated a spin-off (the "Spin-Off")

to its stockholders of its ownership position in the Company. In connection with the Spin-Off, the Company entered into employment agreements with each of Messrs. Corriveau and Corley (the "Employment Agreements") to supersede the employment agreements entered in 1989. The Employment Agreements provide for employment by the Company of Messrs. Corriveau and Corley at salaries at least equal to their present salaries for a period of five years after the Spin-Off and contain a covenant not to compete during such employment and for a period of two years after such Employment Agreements' termination prior to expiration. After the termination of an Employment Agreement by expiration, the two year covenant not to compete remains in effect if the Company elects to pay the employee the full amount of his then current salary for a period of one year after such date of expiration. The Employment Agreements may be terminated upon death, disability, for "cause" (as defined therein) or for a material breach of such Employment Agreement. Pursuant to the terms of each Employment Agreement, if either Mr. Corriveau's or Mr. Corley's employment is terminated prior to the expiration of their respective Employment Agreement other than because of death, certain disabilities, certain unlawful or dishonest acts or a breach of the terms of such Employment Agreement, the Company will be obligated to continue to provide such employee's current salary and benefits until the later of (i) one year after the date of such termination or (ii) the earlier of (x) the expiration date of the respective Employment Agreement or (y) three years from the date of such termination. If, at any time during the term of either Employment Agreement, the respective employee is removed from the Board of

11

Directors of the Company or at the expiration of his term as a director is not nominated to serve as a director of the Company, and the cause of such removal or failure to nominate is not the result of employee's unwillingness to serve as a director of the Company or certain actions by the employee, then such employee may elect to terminate his employment and treat such removal or failure to nominate as a termination without cause.

Pursuant to a standstill agreement entered in connection with the Spin-Off, Messrs. Corriveau, Corley and Henrion have agreed that, until June 2000, they (i) will support the candidates selected by the majority of the Board of Directors as nominees to the Board of Directors of the Company and will vote all of their common stock in favor of the election of such nominees at all annual and any special meetings of the shareholders of the Company; (ii) will not, without the consent of a committee of the Company's independent directors, proceed with or seek to cause, directly or indirectly, the acquisition of the Company or substantially all of the equity securities or assets of the Company, or participate in any group to accomplish the foregoing; and (iii) will not seek, without the consent of a committee of the Company's independent directors, directly or indirectly, to control or influence the management, Board of Directors or policies of the Company, through proxy solicitation, voting agreement or otherwise, or participate in any group to accomplish the foregoing; provided, however, this restriction shall not prevent any of them from influencing management, the Board of Directors or the policies of the Company as an officer or director of the Company.

1995 STOCK OPTION PLAN

The Company's Board of Directors adopted the Dave & Buster's, Inc. 1995 Stock Option Plan (the "Option Plan") in order to encourage ownership of the Company's common stock by key employees of the Company and its subsidiaries as well as other persons providing services to the Company. The Board of Directors believes that the Option Plan will enable the Company to attract and retain the services of outstanding employees in competition with other employers. Approximately 150 employees of the Company are eligible to receive options under the Option Plan. Administration of the Option Plan is vested in the Compensation Committee of the Company's Board of Directors (the "Committee").

A total of 450,000 shares of common stock of the Company is available for the granting of options under the Option Plan. As of February 2, 1997, options to purchase a total of 365,000 shares of common stock had been granted under the Plan. If an option expires or terminates before it has been exercised in full, the shares of common stock allocable to the unexercised

portion of such option will again be available for the grant of options under the Option Plan. The maximum number of shares with respect to which the options may be granted to any individual during any calendar year is 45,000.

9

12

The purchase price of the shares under each incentive stock option may not be less than 100% of the fair market value of the common stock at the time of grant. The purchase price under each non-qualified stock option may not be less than 85% of the fair market value of the common stock at the time of grant. The aggregate fair market value, determined at the time of grant, of the common stock with respect to which incentive stock options (granted under the Option Plan and any other stock option plan of the Company) first become exercisable by an optionee in any calendar year may not exceed \$100,000. The term of an option may not be more than ten years from the date of grant. The Option Plan will terminate on May 25, 2005; however, options outstanding at the termination of the Option Plan will not be affected by such termination.

The Committee, in its sole discretion, may grant tax-offset bonus rights ("TOBRs") with respect to non-qualified options. A TOBR entitles the optionee to receive from the Company, upon exercise of the related non-qualified options, an amount in cash equal to (1) the excess, if any, of the aggregate market price over the aggregate purchase price of the shares acquired by such exercise, multiplied by (2) a percentage determined solely by the Committee. The Committee is charged with determining all other terms and provisions of any TOBR.

The federal income tax consequences with respect to awards under the Option Plan differ depending on the form of stock options granted and certain other circumstances. Grants and exercises of incentive stock options are not taxable events although the excess of the fair market value of the shares on the date of exercise over the option price is an item of tax preference for purposes of computing alternative minimum taxable income. However, upon the subsequent disposition of shares acquired upon exercise, the optionee generally will realize, as long-term capital gain or loss, the difference between the sale price and the option price, provided the shares are held by the optionee for at least one year after the date of exercise and two years after the date of grant; however, if the shares are disposed of before the expiration of the one-year and two-year holding periods, the optionee generally will realize ordinary compensation income at the time of the disposition limited to the lesser of (a) the gain, if any, or (b) the excess of the fair market value of the shares at the time the option was exercised over the option price. The Company generally will be entitled to a deduction equal to the ordinary compensation income realized by the optionee. Grants of non-qualified stock options are not taxable events. However, upon exercise, the optionee generally will realize ordinary compensation income equal to the excess of the fair market value of the shares so acquired over the option price. The Company generally will be entitled to a deduction equal to the ordinary compensation income realized by the optionee.

10

13

The following table sets forth information regarding the grant of stock options during fiscal 1996 under the Option Plan to the executive officers named in the above compensation table:

Individual Grants -----	Potential Realizable Value at Assumed
Percent of Total Options/	

Name	Options/ SARs Granted (#)	SARs Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Sh)	Expiration Date	Annual Rates of Stock Price Appreciation for Option Term(1)

Alan L. Murray	2,500	3.88%	16.50	4/01/06	25,950	65,750
Sterling R. Smith	2,500	3.88%	16.50	4/01/06	25,950	65,750

(1) The 5% and 10% assumed annual rates of appreciation are mandated by the rules of the Securities and Exchange Commission and do not reflect the Company's estimates or projections of future prices of the shares of the Company's common stock. There can be no assurance that the amounts reflected in this table will be achieved.

The following table sets forth certain information with respect to the options held by the executive officers named in the above compensation table at February 2, 1997:

Name	Shares Exercised	Value Realized	Number of Unexercised Options at February 2, 1997 (1)		Value of Unexercised In-the-Money Option at February 2, 1997 (2)

DIRECTOR COMPENSATION

Directors who are employees of the Company receive no additional compensation for their attendance at meetings of the Board or any of its committees of which they are members.

Directors who are not employees of the Company receive \$8,000 as an annual retainer, \$1,000 for participation in each Board meeting and \$800 for participation in each committee meeting. When participation in a Board or committee meeting is by telephone, the fee paid is one-half of the amount reported above.

In February 1996, the Company adopted a stock option plan for outside directors (the "Directors Plan") to provide independent, outside directors (excluding those directors who were stockholders prior to February 1996) with an incentive for serving as a director by providing a proprietary interest in the Company through the granting of options. Directors who are not employees are entitled to participate in the Directors Plan. A total of 100,000 shares of common stock are subject to the Directors Plan. Upon election to the Board

of Directors of the Company, each eligible director is granted an option to purchase 15,000 shares effective as of the date of such election and vesting over a three year period. Accordingly, options have been granted to each of Messrs. Bernstein, Levy and Vittert to purchase an aggregate of 15,000 shares at an exercise price of \$15.56 per share. The options granted under the Directors Plan are not entitled to "incentive stock option" treatment for federal income tax purposes. Accordingly, under federal income tax laws, an optionee upon exercise of an option under the Directors Plan will recognize ordinary income equal to the fair market value of the stock on the date of exercise minus the exercise price.

CERTAIN FILINGS BY EXECUTIVE OFFICERS AND DIRECTORS

Under the securities laws of the United States, the Company's directors, executive officers and persons who own more than 10% of the Company's common stock are required to report their initial ownership of the Company's common stock and any subsequent changes in that ownership to the Securities and Exchange Commission. Specific due dates have been established for these reports, and the Company is required to disclose in this proxy statement any failure to file by these dates. All of these filing requirements were satisfied during fiscal 1996 except that Mr. Corriveau and Mr. Michel each filed one report 13 days late (sale of 15,000 shares by Mr. Corriveau on September 13, 1996 and sale of 100 shares by Mr. Michel on September 21, 1996).

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee is empowered to review, and to recommend to the full Board of Directors, the annual compensation, long-term incentive compensation and compensation procedures for all executive officers of the Company. The Compensation Committee, composed solely of non-employee directors, also administers the Option Plan.

As a matter of policy, the Compensation Committee believes that the annual compensation of the executive officers should consist of both a base salary component and bonus component. The base salary component should be based on generally subjective factors and include the contribution the executive officer made and is anticipated to make to the success of the Company, the level of experience and responsibility of the executive officer, the competitive position of the Company's executive compensation and the Company's historical levels of compensation for executive officers. The Compensation Committee does not expect to assign quantitative relative weights, however, to any of these factors. The bonus component of the annual compensation of the executive officers should provide executive officers with the opportunity to earn a significant portion of their base salary in the form of incentive compensation, which therefore puts a significant portion of their total compensation "at risk." This incentive compensation is distributed upon the achievement of certain predetermined earnings targets.

As described elsewhere in the proxy statement, the annual base salary for the co-chief executive officers of the Company has been established pursuant to arms length negotiations between the co-chief executive officers and Edison Brothers as a part of the spin-off of the Company from Edison Brothers and in recognition of the 1989 agreements entered into in connection with the original acquisition of the Company's business by Edison Brothers in 1989. In addition, the incentive compensation paid in fiscal 1995 to such persons was established pursuant to agreements negotiated in 1989. Accordingly, the Compensation Committee did not separately review the compensation of the co-chief executive officers during fiscal 1996.

The Company does not provide for any long-term compensation for executive officers other than through the granting of stock options. Option grants are made in the discretion of the Compensation Committee. No options were granted to the Company's co-chief executive officers in fiscal 1996.
