NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(in millions, except per share amounts; unaudited)

Note 1: Summary of Significant Accounting Policies

The accompanying consolidated financial statements include the accounts of Dave & Buster's Entertainment, Inc. (referred to herein as the "Company," "we," "us" and "our"), any predecessor companies and its wholly-owned subsidiaries, including Dave & Buster's Holdings, Inc. ("D&B Holdings"), which owns 100% of the outstanding common stock of Dave & Buster's, Inc. ("D&B Inc"), the operating company. The Company, headquartered in Coppell, Texas, is a leading operator of high-volume entertainment and dining venues ("stores") in North America for adults and families.

The Company operates its business as one reportable operating segment, with two reporting units based on its major brands: Dave & Buster's and Main Event. The Company has one reportable operating segment as both brands provide similar products and services to a similar customer base, are managed together by a single management team and share similar economic characteristics. See further discussion of segment consideration at Note 8 - Segment Information to the unaudited consolidated financial statements.

During the three months ended May 5, 2026, the Company opened one store. As of May 5, 2026, the Company owned and operated 244 stores in 44 states, Puerto Rico and one Canadian province.

Fiscal Calendar — We operate on a 52-week or 53-week fiscal year that ends on the Tuesday after the Monday closest to January 31. Each quarterly period reported has 13 weeks, except for 53-week fiscal years when the fourth quarter has 14 weeks. Fiscal 2026, which will end February 2, 2027, and fiscal 2025, which ended on February 3, 2026, both follow a 52-week calendar.

Basis of Presentation — The Company's financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States for interim financial information as prescribed by the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all the information and notes required by GAAP for complete financial statements. In the opinion of management, these financial statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position, results of operations and cash flows for the periods indicated. Our quarterly financial data should be read in conjunction with the audited financial statements and notes thereto for the year ended February 3, 2026, included in our Annual Report on Form 10-K as filed with the SEC on March 31, 2026.

The preparation of consolidated financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities at the date of the consolidated financial statements and for the period then ended. Actual results could differ from those estimates. Operating results for the three months ended May 5, 2026 are not necessarily indicative of results that may be expected for any other interim period or for the full fiscal year ending February 2, 2027.

Cash and Cash Equivalents — We consider transaction settlements in process from credit card companies and all highly-liquid investments with original maturities of three months or less to be cash equivalents. Our cash management system provides for the daily funding of all major bank disbursement accounts as checks are presented for payment. Under this system, outstanding checks in excess of the cash balances at certain banks can create book overdrafts. There were no book overdrafts as of May 5, 2026 or as of February 3, 2026.

Fair Value of Financial Instruments — Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. In determining fair value, the accounting standards establish a three-level hierarchy for inputs used in measuring fair value.

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable, and other current liabilities approximate fair value because of their short-term nature. The fair value of the Company's debt is determined based on traded price data as of the measurement date, which we classify as a level two input within the fair value hierarchy as defined under GAAP. The fair value of the Company's debt was as follows as of the periods indicated:

	May 5, 2026	February 3, 2026
Revolving credit facility	\$ 150.0	\$ 170.0
Term loans	1,223.5	1,264.3
Total debt	<u>\$ 1,373.5</u>	<u>\$ 1,434.3</u>

Revenues — Our entertainment revenues primarily consist of attractions including redemption and simulation games, bowling, laser tag, billiards and gravity ropes. Our food and beverage revenues consist of full meals, appetizers and both alcoholic and non-alcoholic beverages. The Company's revenue by category was as follows:

Food and beverage revenues	<u>\$ 214.1</u>	<u>\$ 201.1</u>

⁽¹⁾ Primarily consists of revenue earned from party and room rentals, gift card breakage (see *Revenue Recognition* below) and franchise revenues.

Revenue Recognition for Entertainment — Customers purchase cards with game play credits to be used on a variety of redemption and simulation games. Entertainment revenues related to game play primarily consist of game play credits, which are used by customers to activate video and redemption games. Redemption games allow customers to earn tickets, which may be redeemed for prizes. We have deferred a portion of entertainment revenues for the estimated unfulfilled performance obligations related to unredeemed game play credits and unredeemed tickets. The deferred entertainment revenue is based on an estimated rate of future use by customers of unused game play credits and the material right provided to customers to redeem tickets in the future for prizes. The Company recognizes breakage as revenue in proportion to the pattern of redemption by the customers. This breakage is based on the Company's specific historical redemption patterns and will change as those redemption patterns change over time. Recognized game play credits and tickets breakage revenue is included in Entertainment revenues in the Consolidated Statements of Comprehensive Income. Historically, select Company promotional programs have included multiple performance obligations that are discounted from the standalone selling prices. We allocate the entire discount to the remaining performance obligation.

During the three months ended May 5, 2026, we recognized revenue of \$43.0 related to the amount in deferred entertainment revenues as of the end of fiscal 2025.

Revenue Recognition for Gift Cards — During the three months ended May 5, 2026, we recognized revenue of \$8.8 related to the amount in deferred gift card revenue as of the end of fiscal 2025. These revenues are included in Entertainment revenues on the Consolidated Statements of Comprehensive Income. We recognize breakage revenue on unredeemed gift cards in proportion to the pattern of redemption by the customers.

Earnings Per Share — Basic net income per share is computed by dividing net income available to common shareholders by the basic weighted average number of common shares outstanding for the reporting period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted net income per share, the basic weighted average shares outstanding is increased by the dilutive effect of stock options and restricted share awards. Stock options and restricted share awards with an anti-dilutive effect are not included in the diluted net income per share calculation.

Basic weighted average shares outstanding were reconciled to diluted weighted average shares outstanding as follows:

	Three Months Ended	
	May 5, 2026	May 6, 2025
Basic weighted average shares outstanding	34.66	34.72
Weighted average dilutive impact of awards	0.28	0.47
Diluted weighted average shares outstanding	<u>34.94</u>	<u>35.19</u>
Weighted average awards excluded as anti-dilutive	2.90	0.62

Recent Accounting Pronouncements — We reviewed the accounting pronouncements that were issued during fiscal 2026 to determine whether they would have a material impact on the consolidated financial statements.

See the discussion at Note 1 to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended February 3, 2026 for previously issued accounting pronouncements that may impact the Company in the future.

⁽¹⁾ See discussion of failed sale-leaseback transactions and finance leases at Note 3.

Note 3: Leases

We currently lease the vast majority of the buildings or sites for our stores, store support center, and warehouse space under facility operating leases. These leases typically have initial terms ranging from ten to twenty-five years and include one or more options to renew. When determining the lease term, we include option periods for which renewal is reasonably certain. Most of the leases require us to pay property taxes, insurance, and maintenance of the leased assets. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants. Operating leases also include certain equipment leases that have a term in excess of one year. Certain facility leases also have provisions for additional variable contingent rentals based on revenues.

Finance leases are included within "Property and equipment", "Accrued liabilities" and "Other long-term liabilities" in the Consolidated Balance Sheets. Finance lease payments are classified as a reduction of cash flows in financing activities related to principal and operating activities related to interest with corresponding asset amortization included in operating activities in the Consolidated Statements of Cash Flows.

Operating lease cost, variable lease cost and short-term lease cost related primarily to our facilities is included in "Other store operating expenses" for our operating stores, "Pre-opening costs" for our stores not yet operating, or "General and administrative expenses" for our store support center and warehouse, in the Consolidated Statements of Comprehensive Income.

DAVE & BUSTER'S ENTERTAINMENT, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(in millions, except per share amounts; unaudited)

The components of lease expense, including variable lease costs primarily consisting of common area maintenance charges and property taxes, were as follows for the periods presented:

	Three Months Ended	
	May 5, 2026	May 6, 2025
Operating lease cost	\$ 53.6	\$ 52.7
Variable lease cost	9.6	12.0
Short-term lease cost	0.5	1.0
Total	<u>\$ 63.7</u>	<u>\$ 65.7</u>

Operating lease payments in the table above include minimum lease payments for future sites for which the leases have commenced. As of May 5, 2026, the Company had signed lease agreements with total commitments of \$94.4 related to six facility leases, which had not yet commenced. Fixed minimum lease payments related to these facilities were not included in the right-of-use assets and lease liabilities on the Consolidated Balance Sheets as of May 5, 2026.

Sale-leaseback transactions

In fiscal 2025, the Company entered into sale and master lease agreements (“sale-leaseback transactions”) with an unrelated third party. Under these agreements:

- The Company sold two of its open store properties, and certain store properties under development, including land, buildings and certain improvements, and then leased the assets back through these sale-leaseback transactions.
- Total proceeds related to these sale and master lease agreements as of May 5, 2026 were \$123.2, net of certain closing costs, \$16.8 of which was received during the three months ended May 5, 2026.

The sale-leaseback transactions were accounted for as failed sale leasebacks based on GAAP under ASC 842, *Leases*. As a result, the store property assets remain on the Consolidated Balance Sheet at their historical cost and are depreciated over the remaining term of the applicable master lease.

As of May 5, 2026, the current outstanding financing liability of \$2.8 was included in Accrued liabilities on the Consolidated Balance Sheet and the long-term outstanding financing liability of \$384.4 was included in Other long-term liabilities on the Consolidated Balance Sheet for the transactions noted above, as well as failed sale leaseback transactions entered into prior to fiscal 2025.

Finance Leases

As of May 5, 2026, the Company had finance lease liabilities related to three properties. The current outstanding finance lease liability of \$0.4 was included in Accrued liabilities on the Consolidated Balance Sheet and the long-term outstanding finance lease liability of \$32.6 was included in Other long-term liabilities on the Consolidated Balance Sheet.

Note 4: Debt

Long-term debt consisted of the following as of the dates presented:

	May 5, 2026	February 3, 2026
Credit facility—revolver	\$ 150.0	\$ 170.0
Credit facility—term loans	1,380.5	1,382.3

Less debt issue discounts and debt issuance costs	(28.2)	(30.3)
Long-term debt, net	<u>\$ 1,495.3</u>	<u>\$ 1,515.0</u>

Credit Facility

In fiscal 2022, the Company entered into a senior secured credit agreement (as amended periodically, the “Credit Agreement”) including a revolving credit facility (the “Revolving Credit Facility”) and a term loan facility (together with the Revolving Credit Facility, the “Credit Facility”). On November 1, 2024, D&B Inc. entered into an amendment with its banking syndicate that amended the Credit Facility (the “Fourth Amendment”). The Fourth Amendment, among other things, increased term loans to an aggregate principal amount of \$700.0 (the “Incremental Term B Loans”) with a maturity date of November 1, 2031, and increased the Revolving Credit Facility by \$150.0 to a total of \$650.0 and extended the

DAVE & BUSTER'S ENTERTAINMENT, INC.

maturity date of November 1, 2029. The proceeds from the Incremental Term B Loans were primarily used to redeem \$440.0 of outstanding senior secured notes, and to pay down \$200.0 of the principal on term loans outstanding under the Credit Facility (the "Existing Term B Loans").

In December 2025, D&B Inc., D&B Holdings, the lenders party thereto and Deutsche Bank AG New York Branch, as administrative agent entered into the Fifth Amendment to the Credit Agreement (the "Fifth Amendment"),

The Fifth Amendment among other things:

- provides for an increase in the maximum permitted net total leverage ratio of D&B Inc. and its restricted subsidiaries from 3.50:1.00 to 4.00:1.00 as of the end of each fiscal quarter when applicable to test the net total leverage ratio and
- increases the margin applicable to the revolving loans to, in the case of SOFR loans, 3.25% per annum and, in the case of ABR loans, 2.25% per annum.

Both the Existing Term B Loans and the Incremental Term B Loans bear interest at Term SOFR or ABR (each, as defined in the amended Credit Agreement) plus (i) in the case of Term SOFR loans, 3.25% per annum and (ii) in the case of ABR loans, 2.25% per annum. Borrowings under the Revolving Credit Facility bear interest subject to a pricing grid based on net total leverage, at Term SOFR plus a spread ranging from 2.50% to 3.25% per annum or ABR plus a spread ranging from 1.50% to 2.25% per annum. Unused commitments under the Revolving Credit Facility incur initial commitment fees of 0.30% to 0.50%. Additionally, the interest rate margin applicable to the Existing Term B Loans and loans outstanding under the Revolving Credit Facility would be subject to an additional 0.25% step-down if a rating of B1/B+ or higher from Moody's and S&P is achieved (which will step back up if such rating is subsequently not maintained).

A portion of the Revolving Credit Facility not to exceed \$35.0 is available for the issuance of letters of credit. As of May 5, 2026, we had letters of credit outstanding of \$20.5 and an unused commitment balance of \$479.5 under the Revolving Credit Facility. The Credit Facility may be increased through incremental facilities, by an amount equal to the greater of (i) \$400.0 and (ii) 0.75 times trailing twelve-month Adjusted EBITDA, as defined in the Credit Agreement, plus additional amounts subject to compliance with applicable leverage ratio and/or interest coverage ratio requirements.

Restrictive covenants and debt compliance

Our debt agreements contain restrictive covenants that, among other things, place certain limitations on our ability to incur additional indebtedness, make loans or advances to subsidiaries and other entities, pay dividends, acquire other businesses or sell assets. The Credit Facility also requires the Company to maintain a maximum net total leverage ratio, as defined in the Credit Agreement, as of the end of each fiscal quarter. As of May 5, 2026, we believe we were in compliance with our debt covenants and the terms of our debt agreements.

Interest expense

The Company's weighted average effective interest rate on its total debt facilities was 7.9% and 8.6% for the three months ended May 5, 2026 and May 6, 2025, respectively.

The following table sets forth our total interest expense, net for the periods presented:

	Three Months Ended

Note 5: Commitments and Contingencies

Other Matters

The Company is subject to certain legal proceedings and claims that arise in the ordinary course of our business, including claims alleging violations of federal and state law regarding workplace and employment matters, discrimination, slip-and-fall and other customer-related incidents and similar matters. In the opinion of management, based upon consultation with legal counsel, the amount of ultimate liability with respect to such legal proceedings and claims will not materially affect the consolidated results of our operations or our financial condition. Legal costs related to such claims are expensed as incurred.

The Company is subject to the terms of a settlement agreement with the Federal Trade Commission that requires us, on an ongoing basis, to establish, implement, and maintain a comprehensive information security program that is reasonably designed to protect the security, confidentiality, and integrity of personal information collected from or about consumers. The agreement does not require us to pay any fines or other monetary assessments, and we do not believe that the terms of the agreement will have a material adverse effect on our business, operations, or financial performance.

Note 6: Stockholders' Equity and Share-Based Compensation

Share issuances and repurchases

The Company treats shares withheld for tax purposes on behalf of its employees in connection with the vesting of time-based and performance-based restricted stock units as common stock repurchases because they reduce the number of shares that would have been issued upon vesting. These were immaterial for all periods presented.

In March 2023, our Board of Directors approved a share repurchase program with an initial authorized limit of \$100.0. Subsequently, our Board of Directors approved additional repurchases for a total authorized limit of \$600.0 under the plan as of May 5, 2026. The remaining dollar value of shares that may be repurchased under the program was \$104.0 as of May 5, 2026. Future decisions to repurchase shares continue to be at the discretion of the Board of Directors and will be dependent on our operating performance, financial condition, capital expenditure requirements and other factors that the Board of Directors considers relevant.

Share-based compensation

Our share-based compensation expense, which is included in General and administrative expenses on the consolidated statements of income, was as follows for the periods presented:

	Three Months Ended	
	May 5, 2026	May 6, 2025
Share-based compensation expense	\$ 2.5	\$ 3.0

Share-based awards

The Company's long-term incentive compensation plan provides awards to executive and management personnel, as well as directors, and issues share-based awards. We also grant stock options or restricted stock units to executive and management personnel and members of our Board of Directors. Options granted to employees generally become exercisable ratably over a three-year period from the grant date. Performance-based restricted stock units and market stock units awarded to employees generally either vest ratably over three years or fully vest after three years, subject to the

DAVE & BUSTER'S ENTERTAINMENT, INC.

achievement of specified performance or market conditions, as applicable. Time-based restricted stock units have various service periods not exceeding five years.

Our share-based compensation award activity during the three months ended May 5, 2026 was as follows:

	Options	Restricted Stock Units ⁽¹⁾	Total
Outstanding as of February 3, 2026	1.87	1.02	2.89
Granted	0.32	0.28	0.60
RSUs vested and distributed	—	(0.04)	(0.04)
Forfeited or cancelled	(0.06)	(0.05)	(0.11)
Outstanding as of May 5, 2026	2.13	1.21	3.34
Remaining unrecognized compensation expense	\$ 13.5	\$ 23.6	\$ 37.1

⁽¹⁾ Includes performance-based restricted stock units, market-based restricted stock units and time-based restricted stock units.

The fair value of our time-based and performance-based restricted stock units was based on our closing stock price on the date of grant. The grant date fair value of stock options was determined using the Black-Scholes option valuation model. The unrecognized expense will be substantially recognized by the end of fiscal 2028.

During fiscal 2026, the Company granted certain options, time-based and performance-based restricted stock units to the Company's executive officers, the Board of Directors, and employees. The majority of these grants vest over three years.

Note 7: Income Taxes

The Company's effective tax rate for the three months ended May 5, 2026, was 43.0%, compared to 17.8% for the three months ended May 6, 2025. The increase in the effective tax rate for the current-year period was primarily due to the estimated annual effective tax rate applied in the interim provision calculation, which increased the relative impact of state income taxes, tax credits, permanent items and discrete tax items on the quarter's tax rate. In the prior-year period, these items had a lesser relative impact due to a larger pretax income base.

Note 8: Segment Information

The Company provides premier entertainment and dining experiences for adults and families under the "Dave & Buster's" and "Main Event" brands and offers guests the opportunity to "Eat Drink Play and Watch," all in one location. The Company's Chief Executive Officer, the Company's chief operating decision maker ("CODM"), reviews the financial information presented on a consolidated basis. The CODM assesses performance and allocates resources based on the Company's Consolidated Statements of Comprehensive Income, since the Company provides its offerings and key metrics, costs and margins similarly to both business units. The CODM manages and evaluates the results of the business in a consolidated manner to drive synergies and develop uniform strategies. Accordingly, key components and processes of the Company's operations are centrally managed, including site acquisition and development, customer service, marketing, human resources, finance and accounting, legal, risk management, and government affairs. Segment asset information is not used by the CODM to allocate resources. Under the described organizational and reporting structure, the Company has one reportable segment. As a single reportable segment entity, the Company's segment performance measure was net

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
(in millions, except per share amounts; unaudited)

Overview

The following discussion and analysis of our financial condition and results of operations should be read together with the accompanying unaudited consolidated financial statements and the related notes in Item 1 and with the audited consolidated financial statements and the related notes included in our Annual Report on Form 10-K for fiscal 2025 as filed with the SEC on March 31, 2026.

Unless otherwise specified, the meanings of all defined terms in "Management's Discussion and Analysis of Financial Condition and Results of Operations" are consistent with the meanings of such terms as defined in the Notes to unaudited consolidated financial statements. This discussion contains statements that are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements can be identified by the use of forward-looking terminology, including the terms "believes," "estimates," "anticipates," "expects," "intends," "may," "will" or "should" or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this report and include statements regarding our intentions, beliefs or current expectations concerning, among other things: our results of operations; financial condition; liquidity; prospects; growth; strategies; the industry in which we operate; expansion and opening of new locations; expectations regarding variability in run-rate levels in our stores and seasonality; expectations of future proceeds from sale leaseback transactions; anticipated breakage; our compliance with debt covenants and the terms of our debt agreement; our defenses to various legal claims we may face; and opportunities and risks affecting our business, industry and financial results, including macroeconomic factors.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: our ability to successfully design and execute our business strategy; our effectiveness at integrating and operating our past or future acquisitions; the effects of new or improved technologies or changes in consumer behavior; the potential for unfavorable publicity; our ability to obtain and renew leases on favorable terms or at all; our substantial indebtedness and covenants in our debt agreements restricting our ability to implement our business plan; our success in opening and operating new stores profitably and optimizing existing stores; risks related to our information systems and potential cybersecurity breaches or other privacy or data incidents; the cost and availability of certain commodities; our procurement of new games and entertainment offerings and our ability to obtain related licensing rights; the extensive laws and regulations in which we must comply with; and other factors, including those set forth in the section entitled "Risk Factors" in our Annual Report on Form 10-K filed with the SEC on March 31, 2026. In addition, even if our results of operations, financial condition and liquidity, and the development of the industry in which we operate are consistent with the forward-looking statements contained in this Form 10-Q, such results or developments may not be indicative of results or developments in subsequent periods. Forward-looking statements are based only on information currently available to us and speak only as of the date of this Form 10-Q. We do not undertake any obligation to update or revise the forward-looking statements to reflect events that occur or circumstances that exist after the date on which such statements were made, except to the extent required by law.

Quarterly Financial Highlights

- First quarter revenue of \$559.2 decreased 1.5% compared to the first quarter of 2025.
- Comparable store sales decreased 5.4% compared to the same calendar period in 2025. See further discussion of comparable store sales below at *Revenues*.
- Net income totaled \$5.7, or \$0.16 per diluted share, compared to net income of \$21.7, or \$0.62 per diluted share in the first quarter of 2025.
- Adjusted EBITDA of \$123.2 decreased 9.5%, or \$12.9, from the first quarter of 2025. See further discussion of Adjusted EBITDA, a non-GAAP measure, at *Non-GAAP Financial Measures* below along with a reconciliation to net income, the most comparable GAAP measure, at *Reconciliations of Non-GAAP Financial Measures* below.

DAVE & BUSTER'S ENTERTAINMENT, INC.
Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
(in millions, except per share amounts; unaudited)

General

We are a leading owner and operator of high-volume venues primarily in North America that combine entertainment and dining for both adults and families under the “Dave & Buster’s” and “Main Event” brands. The core of our concept is to offer our customers various forms of entertainment along with quality dining all in one location. Our entertainment offerings provide an extensive assortment of attractions centered around playing games, bowling, and watching live sports and other televised events. Our brands appeal to a relatively balanced mix of male and female adults, as well as families and teenagers. We believe we appeal to a diverse customer base by providing a highly customizable experience in a dynamic and fun setting.

Our Dave & Buster’s stores average 36,800 square feet and range in size between approximately 16,100 and 70,000 square feet. Our Main Event stores average about 53,300 square feet and range in size between approximately 37,500 and 78,200 square feet. Generally, our stores are open seven days a week, with normal hours of operation generally from between 10:00 to 11:30 a.m. until midnight, with stores typically open for extended hours on weekends.

Key Measures of Our Performance

We monitor and analyze several key performance measures to manage our business and evaluate financial and operating performance, including:

Comparable store sales — Comparable store sales are a comparison of sales to the same period of prior years for the comparable store base. We historically define the comparable store base to include those stores open for a full 18 months before the beginning of the current fiscal year and exclude stores permanently closed or planned for closure during the current fiscal year. For fiscal 2026, our comparable store base consists of 224 stores, of which 165 are Dave & Buster’s branded stores and 59 are Main Event branded stores.

New store openings — Our ability to expand our business and reach new customers is influenced by the opening of additional stores in both new and existing markets. The success of our new stores is indicative of our brand appeal and the efficacy of our site selection and operating models. For the three months ended May 5, 2026, we opened one new Dave & Buster’s branded store.

Non-GAAP Financial Measures

In addition to the results provided in accordance with GAAP, we provide non-GAAP measures which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with GAAP and include Adjusted EBITDA, Credit Adjusted EBITDA and Store Operating Income Before Depreciation and Amortization (defined below). These non-GAAP measures do not represent and should not be considered as alternatives to net income or cash flows from operations, as determined in accordance with GAAP, and our calculations thereof may not be comparable to similarly titled measures reported by other companies and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

Although we use these non-GAAP measures to assess the operating performance of our business, they have significant limitations as an analytical tool because they exclude certain material costs. For example, Adjusted EBITDA does not take into account a number of significant items, including our interest expense and depreciation and amortization expense. In addition, Adjusted EBITDA excludes certain other costs that may be important in analyzing our GAAP results. Because Adjusted EBITDA does not account for these expenses, its utility as a measure of our operating performance has material limitations. Our calculations of Adjusted EBITDA adjust for these amounts because we believe they do not directly relate to the ongoing operations of the current business of our stores and therefore complicate the comparison of the underlying business between periods. Nevertheless, because of the limitations described above, management does not view Adjusted EBITDA, Credit Adjusted EBITDA or Store Operating Income Before Depreciation and Amortization in isolation and also uses other measures, such as revenues, gross margin, operating income and net income to measure operating performance.

Adjusted EBITDA

We define “Adjusted EBITDA” as net income, plus interest expense, net, loss on debt refinancing, provision for income taxes, depreciation and amortization expense, (gain) loss on property and equipment transactions, impairment of long-lived assets, share-based compensation, currency transaction (gains) losses, transaction and integration costs, system implementation costs and other items, net.

DAVE & BUSTER'S ENTERTAINMENT, INC.
Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
(in millions, except per share amounts; unaudited)

Adjusted EBITDA is presented because we believe that it provides useful information to investors and analysts regarding our operating performance. By reporting Adjusted EBITDA, we provide a basis for comparison of our business operations between current, past and future periods by excluding items that we do not believe are indicative of our core operating performance.

Credit Adjusted EBITDA

We define "Credit Adjusted EBITDA" as net income plus certain items as defined at *Adjusted EBITDA* above, as well as certain other adjustments as defined in our Credit Agreement (see *Liquidity and Capital Resources* below for additional discussion and reconciliation). These other adjustments include (i) increases in entertainment revenue deferrals, (ii) the cost of new projects, including store pre-opening costs, and (iii) other costs and adjustments as permitted by the Credit Agreement. We believe the presentation of Credit Adjusted EBITDA is appropriate as the metric provides additional information to investors about the calculation of, and compliance with, certain financial covenants in the Credit Agreement.

Store Operating Income Before Depreciation and Amortization

We define "Store Operating Income Before Depreciation and Amortization" as operating income, plus depreciation and amortization expense, general and administrative expenses, pre-opening costs and other charges and gains. Store Operating Income Before Depreciation and Amortization allows for the evaluation of operating performance across stores of varying size and volume.

We believe that Store Operating Income Before Depreciation and Amortization is another useful measure in evaluating our operating performance because the metric removes the impact of general and administrative expenses, which are not incurred at the store level, and the costs of opening new stores, which are non-recurring at the store level, and thus enables the comparability of the operating performance of our stores for the periods presented. We also believe that Store Operating Income Before Depreciation and Amortization is a useful measure in evaluating our operating performance within the entertainment and dining industry because the metric permits the evaluation of store-level productivity, efficiency, and performance, and we use Store Operating Income Before Depreciation and Amortization as a means of evaluating store financial performance compared to our competitors. However, because the measure excludes significant items such as general and administrative expenses, pre-opening costs, and other charges and gains, as well as our interest expense, net, loss on debt refinancing and depreciation and amortization expense, which are important in evaluating our consolidated financial performance from period to period, the value of this measure is limited as a measure of our consolidated financial performance.

Presentation of Operating Results

We operate on a 52-week or 53-week fiscal year that ends on the Tuesday after the Monday closest to January 31. Each quarterly period reported has 13 weeks, except for 53-week fiscal years when the fourth quarter has 14 weeks. Fiscal 2026, which will end February 2, 2027 and fiscal 2025, which ended on February 3, 2026, both follow a 52-week calendar.

Store-Level Variability, Quarterly Fluctuations, Seasonality and Inflation

We operate stores of various sizes and experience significant store variability in volumes, operating results and net investment costs.

Our new stores typically open with sales volumes in excess of their expected long-term run-rate levels, which we refer to as a "honeymoon" effect. We traditionally expect our new store sales volumes in year two to be lower than our year one targets, and to grow in line with the rest of our comparable store base thereafter. As a result of the substantial revenues associated with each new store, the number and timing of new store openings will result in significant fluctuations in quarterly results.

New store operating margins (excluding pre-opening expenses) during the first year of operation may benefit from honeymoon sales leverage on occupancy, management labor and other fixed costs. This benefit is partially offset by normal inefficiencies in hourly labor and other costs associated with establishing a new store. In year two, operating margins may decline due to the loss of honeymoon sales leverage on fixed costs, which is partially offset by improvements in store operating efficiency.

Our operating results historically have fluctuated due to seasonal factors. Typically, we have higher revenues associated with the spring and year-end holidays, and sales and customer traffic during these periods are susceptible to the impact of severe, unfavorable or unseasonably mild weather. Our third quarter, which encompasses the back-to-school fall season, has historically had lower revenues as compared to other quarters.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
(in millions, except per share amounts; unaudited)

Economic and environmental conditions and changes in regulatory legislation could exert pressure on both supplier pricing and consumer spending related to entertainment and dining alternatives. There is no assurance that our cost of products will remain stable or that federal, state, or local minimum wage rates will not increase beyond amounts currently legislated. However, the effects of any supplier price increase or wage rate increases might be partially offset by selective price increases if competitively appropriate.

Results of Operations

Revenues - Selected revenue data and store data for the periods indicated are as follows:

	Three Months Ended		Change
	May 5, 2026	May 6, 2025	
Comparable store revenues	\$ 512.3	\$ 541.5	\$ (29.2)
Noncomparable store revenues	37.2	19.1	18.1

Total revenues	\$ 559.2	\$ 567.7	\$ (8.5)
Comparable store operating weeks	2,912	2,912	—
Noncomparable store operating weeks	247	106	141
Total store operating weeks	3,159	3,018	141

⁽¹⁾ Includes changes in deferred entertainment revenues, gift card deferrals and certain other revenues not associated with stores.

The table below represents our revenue mix for the fiscal periods indicated:

	Three Months Ended			
	May 5, 2026		May 6, 2025	
Entertainment revenues	\$ 345.1	61.7 %	\$ 366.6	64.6 %
Food revenues	148.6	26.6 %	137.5	24.2 %
Beverage revenues	65.5	11.7 %	63.6	11.2 %
	\$ 559.2	100.0 %	\$ 567.7	100.0 %

Total revenues for the 2026 period decreased \$8.5, or 1.5%, to \$559.2 compared to \$567.7 for the 2025 period. The decrease in revenue was primarily related to a \$29.2 decrease in comparable store sales, partially offset by an \$18.1 increase in noncomparable store revenues, and an increase of \$2.6 in other noncomparable revenues. The decrease in comparable store revenues was due to a reduction in walk-in business relative to the prior year period. The change in other noncomparable revenues reflects breakage on unredeemed game play credits, tickets and gift cards corresponding to guest utilization patterns over time. See *Revenue Recognition* at Note 1 to the unaudited consolidated financial statements for a discussion of revenue recognition associated with game play credits, tickets and gift cards.

Cost of products - The total cost of products was \$79.8 for the 2026 period and \$82.1 for the 2025 period. The total cost of products as a percentage of total revenues decreased to 14.3% for the 2026 period compared to 14.5% for the 2025 period. The decrease in total cost of products as a percentage of total revenues was associated with declines in both entertainment and food and beverage cost of sales, partially offset by a higher food and beverage revenue mix.

Cost of entertainment decreased to \$27.4 in the 2026 period compared to \$30.6 in the 2025 period. The cost of entertainment, as a percentage of entertainment revenues, decreased to 7.9% for the 2026 period from 8.3% in the 2025 period. The decrease was primarily attributable to vendor cost savings and lower redemptions due to ticket payout adjustments and redemption center pricing changes, partially offset by continued tariff cost pressure.

Cost of food and beverage products increased to \$52.4 for the 2026 period compared to \$51.5 for the 2025 period. Cost of food and beverage products as a percentage of food and beverage revenues decreased to 24.5% for the 2026 period from 25.6% for the 2025 period. The increase cost was due to higher food and beverage revenue associated with eat-and-play combo enhancements driving higher food attach rates. The decline as a percentage of food and beverage revenues was due to higher check growth associated with menu enhancements made in the second half of fiscal 2025.

Operating payroll and benefits

Total operating payroll and benefits increased to \$140.1 in the 2026 period compared to \$135.0 in the 2025 period. The increase was primarily due to a \$5.3M increase associated with noncomparable stores. The total cost of operating payroll and benefits as a percentage of total revenues for 2026 was 25.1% compared to 23.8% in 2025. The increase was primarily due to sales deleveraging.

Other store operating expenses

Other store operating expenses decreased to \$186.7 in the 2026 period compared to \$188.4 in the 2025 period. Other store operating expense as a percentage of total revenues increased to 33.4% in the 2026 period compared to 33.2% in the 2025 period. The increase was primarily due to sales deleveraging.

General and administrative expenses

General and administrative expenses increased to \$27.5 in the 2026 period compared to \$24.4 in the 2025 period, and as a percentage of total revenues were 4.9% in the 2026 period compared to 4.3% in the 2025. The increase in general and administrative expenses in 2026 was driven primarily by higher employee related costs, consulting and legal expenses.

Depreciation and amortization expense

Depreciation and amortization expense increased to \$70.9 in the 2026 period from \$63.2 in the 2025 period, primarily due to new store openings, store remodels and new amusement offerings.

Pre-opening costs

Pre-opening costs decreased to \$5.4 in the 2026 period compared to \$6.1 in the 2025 period. This decrease was primarily due to the timing of costs in our pipeline of new stores for the respective periods.

Other charges and gains

Other charges and gains decreased to \$1.9 in the 2026 period compared to \$5.3 in the 2025 period primarily due to a decrease in the write off of certain assets and a decrease in system implementation costs.

Interest expense, net

Interest expense, net increased slightly to \$36.9 in the 2026 period compared to \$36.8 in the 2025 period due primarily to incremental interest expense associated with sale-leaseback transactions, in addition to lower balances on our Credit Facility and lower weighted average effective interest rates of 7.9% during the period, compared to 8.6% in the prior year. See further discussion of the Company's debt activity and failed sale-leaseback transaction at Note 4 and Note 3, respectively, to the unaudited consolidated financial statements.

Provision for income taxes

The effective tax rate for the 2026 period was 43.0%, compared to 17.8% for the 2025 period. The effective tax rate increase for the 2026 period in comparison to the 2025 period was primarily due to the estimated annual effective tax rate applied in the interim provision calculation, which increased the relative impact of state income taxes, tax credits, permanent items and discrete tax items on the quarter's tax rate.

Liquidity and Capital Resources

Credit Facility

In fiscal 2022, the Company entered into a senior secured credit agreement (as amended periodically, the "Credit Agreement") including a revolving credit facility (the "Revolving Credit Facility") and a term loan facility (together with the Revolving Credit Facility, the "Credit Facility"). On November 1, 2024, D&B Inc. entered into an amendment with its banking syndicate that amended the Credit Facility (the "Fourth Amendment"). The Fourth Amendment, among other things, increased term loans to an aggregate principal amount of \$700.0 (the "Incremental Term B Loans") with a maturity date of November 1, 2031, and increased the Revolving Credit Facility by \$150.0 to a total of \$650.0 and extended the maturity date of November 1, 2029. The proceeds from the Incremental Term B Loans were primarily used to redeem \$440.0 of outstanding senior secured notes, and to pay down \$200.0 of the principal on term loans outstanding under the Credit Facility (the "Existing Term B Loans").

In December 2025, D&B Inc., Dave & Buster's Holdings, Inc. ("D&B Holdings"), the lenders party thereto and Deutsche Bank AG New York Branch, as administrative agent, entered into the Fifth Amendment to the Credit Agreement (the "Fifth Amendment"),

The Fifth Amendment among other things:

- provides for an increase in the maximum permitted net total leverage ratio of D&B Inc. and its restricted subsidiaries from 3.50:1.00 to 4.00:1.00 as of the end of each fiscal quarter when applicable to test the net total leverage ratio and
- increases the margin applicable to the revolving loans to, in the case of SOFR loans, 3.25% per annum and, in the case of ABR loans, 2.25% per annum.

Both the Existing Term B Loans and the Incremental Term B Loans bear interest at Term SOFR or ABR (each, as defined in the amended Credit Agreement) plus (i) in the case of Term SOFR loans, 3.25% per annum and (ii) in the case of ABR loans, 2.25% per annum. Borrowings under the Revolving Credit Facility bear interest subject to a pricing grid based on net total leverage, at Term SOFR plus a spread ranging from 2.50% to 3.25% per annum or ABR plus a spread ranging from 1.50% to 2.25% per annum. Unused commitments under the Revolving Credit Facility incur initial commitment fees of 0.30% to 0.50%. Additionally, the interest rate margin applicable to the Existing Term B Loans and loans outstanding under the Revolving Credit Facility would be subject to an additional 0.25% step-down if a rating of B1/B+ or higher from Moody's and S&P is achieved (which will step up if such rating is subsequently not maintained).

A portion of the Revolving Credit Facility not to exceed \$35.0 is available for the issuance of letters of credit. As of May 5, 2026, we had letters of credit outstanding of \$20.5 and an unused commitment balance of \$479.5 under the Revolving Credit Facility. The Credit Facility may be increased through incremental facilities, by an amount equal to the greater of (i) \$400.0 and (ii) 0.75 times trailing 12-month Adjusted EBITDA, as defined in the Credit Agreement, plus additional amounts subject to compliance with applicable leverage ratio and/or interest coverage ratio requirements.

Sale-leaseback transactions

The Company has entered into sale and master lease agreements (a "sale leaseback") with unrelated third parties. Under these agreements, the Company has sold certain store properties, including land, buildings and certain improvements and then leased the assets back through the sale-leaseback transactions.

The sale-leaseback transactions were accounted for as failed sale leasebacks based on GAAP under ASC 842, *Leases*. As a result, the store property assets remained on the Consolidated Balance Sheet at their historical net book value and are depreciated over the remaining term of the applicable master lease. Financing liabilities were recognized in the amount of the proceeds received, net of certain transactions costs. The Company does not recognize rent expense related to the leased assets. Instead, monthly rent payments under the applicable master lease agreement are recorded as interest expense and a reduction of the outstanding liability.

Refer to Note 3 to the unaudited consolidated financial statements for further discussion of these transactions.

Credit Adjusted EBITDA and Net Total Leverage Ratio.

Credit Adjusted EBITDA, a non-GAAP measure, represents net loss plus certain items as defined at *Adjusted EBITDA* at *Non-GAAP Financial Measures* above, as well as certain other adjustments as defined in our Credit Agreement. These other adjustments include (i) entertainment revenue deferrals, (ii) the cost of new projects, including store pre-opening costs, (iii) business optimization expenses and other restructuring costs, and (iv) other costs and adjustments as permitted by the Credit Agreements. The following table reconciles Net income to Credit Adjusted EBITDA, as defined in our Credit Agreement for the period indicated:

	Trailing Four Quarters Ended May 5, 2026

- (1) See discussion of share-based compensation at *Adjusted EBITDA* above.
- (2) See discussion of transaction and integration costs at *Adjusted EBITDA* above.
- (3) See discussion of system implementation costs at *Adjusted EBITDA* above.
- (4) Consists of store asset impairments and loss on property and equipment disposals.
- (5) Primarily consists of discretionary retention incentives, severance costs, (gain) loss on property and equipment transactions and certain third-party consulting fees. The third-party consulting fees are not part of our ongoing operations and were incurred in association with a change in leadership to execute discrete, project-based strategic initiatives aimed at analyzing and summarizing growth opportunities and cost reductions for the Company. The transformative nature, narrow scope, and limited duration of these incremental consulting fees are not reflective of the ordinary course expenses incurred to operate our business. Third-party consulting fees, discretionary retention incentives and severance costs are included in General and administrative expenses on the Consolidated Statements of Comprehensive Income.
- (6) Represents costs incurred, primarily consisting of occupancy and payroll related expenses, associated with the opening of new stores. These costs are considered a "cost of new projects" as defined in our Credit Facility.
- (7) Represents other adjustments allowed under our Credit Agreement in the determination of Net Total Leverage Ratio including (i) amortization of software costs, (ii) executive search fees, (iii) public company costs, (iv) estimated impact of remodels to financial performance, (v) the proforma impact of certain leases that were reclassified as finance leases during fiscal 2025 and (vi) the pro forma impact of certain implemented cost saving initiatives.

The following table provides the Net Total Leverage Ratio calculation, as defined in our Credit Agreement as of and for the period indicated:

	As of, and for the Trailing Four Quarters Ended May 5, 2026
Credit Adjusted EBITDA (a)	\$ 461.9
Total debt ⁽¹⁾	\$ 1,535.3
Less: Cash and cash equivalents	(19.6)
Add: Outstanding letters of credit	20.5
Net debt (b)	\$ 1,536.2

- (1) Amount represents the face amount of debt outstanding, net of unamortized debt issuance costs and debt discounts, and balances outstanding under finance leases. See discussion of finance leases at Note 3 to the unaudited consolidated financial statements.

Dividends and Share Repurchases

In March 2023, our Board of Directors approved a share repurchase program with an initial authorized limit of \$100.0. Subsequently, our Board of Directors approved additional repurchases for a total authorized limit of \$600.0 under the plan as of May 5, 2026. The remaining dollar value of shares that may be repurchased under the program was \$104.0 as of May 5, 2026. Future decisions to repurchase shares continue to be at the discretion of the Board of Directors and will be dependent on our operating performance, financial condition, capital expenditure requirements and other factors that the Board of Directors considers relevant.

There have been no dividends declared or paid during 2026. Future decisions to pay cash dividends or repurchase shares continue to be at the discretion of the Board of Directors and will be dependent on our operating performance, financial condition, capital expenditure requirements, compliance with debt agreements and other factors that the Board of Directors considers relevant.

Cash and Cash Equivalents

As of May 5, 2026, the Company had cash and cash equivalents of \$19.6. The Company can operate with a working capital deficit because cash from sales is usually received before related liabilities for product supplies, labor and services become due. Our operations do not require significant inventory or receivables, and we continually invest in our business through the growth of stores and operating improvement additions, which are reflected as non-current assets and not a part of working capital. Based on our current business plan, we believe our cash and cash equivalents, combined with expected cash flows from operations and available borrowings under our Revolving Credit Facility, should be sufficient not only for our operating requirements but also to enable us, in the aggregate, to finance our capital allocation strategy, including capital expenditures, through at least the next twelve months.

Cash Flow Activity

Operating Activities — Cash flow from operations typically provides us with a significant source of liquidity. Our operating cash flows result primarily from cash received from our customers, offset by cash payments we make for products and services, team member compensation, occupancy, and other operating costs. Cash from operating activities is also subject to changes in working capital. Working capital at any specific point in time is subject to many variables, including seasonality, the timing of cash receipts and payments, and vendor payment terms, partially offset by lower Other long-term liabilities.

Cash flow from operating activities increased to \$113.8 for the 2026 period compared to \$95.8 for the 2025 period. The increase was primarily driven by changes in working capital due to timing of accruals and payments, partially offset by a decrease in net income.

Investing Activities — Cash flow used in investing decreased to \$105.3 for the 2026 period from \$154.6 for the 2025 period primarily due to a decrease in capital expenditures.

The following table reflects accrual-based capital additions for the periods presented along with certain reimbursements from landlords directly related to certain of those capital additions and proceeds from the sale of certain capital assets:

	Three Months Ended	
	May 5, 2026	May 6, 2025
New stores	\$ 57.7	\$ 53.0
Remodels and other initiatives	8.0	19.6
Games	24.2	30.0
Maintenance capital	4.3	12.6
Total capital additions	94.2	115.2
Proceeds from landlords - tenant improvements and lease incentives ⁽¹⁾	(6.1)	(5.7)
Payments from landlords - sale leaseback transactions ⁽²⁾	(16.8)	—
Capital additions, net of landlord reimbursements and other proceeds	\$ 71.3	\$ 109.5

⁽¹⁾ Amounts received from landlords as reimbursements for tenant improvements. Amounts related to operating leases are recorded as a reduction to operating lease right of use assets on the Consolidated Balance Sheets and included in cash provided by operating activities in the Consolidated Statements of Cash Flows. Amounts related to finance leases are recorded as a reduction to property and equipment on the Consolidated Balance Sheets and included in cash used in investing activities in the Consolidated Statements of Cash Flows.

⁽²⁾ Amounts received from landlords in sale-leaseback transactions and included in cash provided by financing activities in the Consolidated Statements of Cash Flows. See Note 8 to the unaudited consolidated financial statements for further discussion.

Financing Activities — Cash flow used in financing was \$5.5 in the 2026 period primarily consisting of net debt payments, partially offset by proceeds from sale-leaseback transactions. Cash flow provided by financing activities of \$63.8 in the 2025 period primarily consisted of net debt proceeds, partially offset by share repurchases.

Contractual Obligations and Commitments

There have been no material changes to our contractual obligations as reported on Form 10-K for the year ended February 3, 2026.

Accounting policies and estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and disclosures of contingent assets and liabilities. These estimates and assumptions affect amounts of assets, liabilities, revenues and expenses and the disclosure of gain and loss contingencies at the date of the consolidated financial statements. Our current estimates are subject to change if different assumptions as to the outcome of future events were made. We evaluate our estimates and judgments on an ongoing basis, and we adjust our assumptions and judgments when facts and circumstances dictate. Since future events and their effects cannot be determined with absolute certainty, actual results may differ from the estimates we used in preparing the accompanying consolidated financial statements. A complete description of our critical accounting policies and estimates is included in our annual consolidated financial statements and the related notes in our Annual Report on Form 10-K for the year ended February 3, 2026.

Recent accounting pronouncements

Refer to Note 1 to the unaudited consolidated financial statements for information regarding new accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Commodity Price Risk

We are exposed to market price fluctuation in food, beverage, supplies and other costs such as energy. Given the historical volatility of certain food product prices, including proteins, seafood, produce, dairy products, and cooking oil, these fluctuations can materially impact our food costs. While our purchasing commitments partially mitigate the risk of such fluctuations, there is no assurance that supply and demand factors such as disease or inclement weather will not cause the prices of the commodities used in our restaurant operations to fluctuate. Additionally, the cost of purchased materials may be influenced by tariffs and other trade regulations which are outside of our control. To the extent that we do not pass along cost increases to our customers, our results of operations may be adversely affected.

Interest Rate Risk

Our borrowings under the Credit Facility, discussed further at Note 4 to the unaudited consolidated financial statements, bear interest based on variable interest rates. As of May 5, 2026, the Company had \$150.0 outstanding on its revolving facility and an outstanding balance of \$1,380.5 on its term loan facility. The impact on our annual results of operations of a hypothetical one percentage point interest rate change on the outstanding balance of the Credit Facility as of May 5, 2026 would be approximately \$15.3.

Inflation

Severe increases in inflation, whether due to imposed tariffs or standard economic conditions, could affect the United States or global economies and have an adverse impact on our business, financial condition and results of operation. If several of the various costs in our business experience inflation at the same time, such as commodity price increases beyond our ability to control and increased labor costs, we may not be able to adjust prices to sufficiently offset the effect of the various cost increases without negatively impacting consumer demand.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 promulgated under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There were no changes to our internal control over financial reporting practices or processes that materially affected, or were reasonably likely to materially affect, our internal control over financial reporting during our first quarter ended May 5, 2026.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Information regarding legal proceedings is incorporated by reference from Note 5 to our unaudited consolidated financial statements set forth in Part I of this report.

Item 1A. Risk Factors

See discussion in “Risk Factors” in Item 1A of the Company's Annual Report on Form 10-K for the year ended February 3, 2026. There have been no material changes from the information set forth in “Risk Factors” in Item 1A of the Company’s Annual Report on Form 10-K for the year ended February 3, 2026

⁽³⁾ Our Board of Directors approved a share repurchase program in fiscal 2023, with approved increases during 2024. Under the program, the Company may repurchase shares on the open market, through privately negotiated transactions, and through trading plans designed to comply with Rule 10b5-1 of the Exchange Act, as amended. The share repurchase program(s) may be modified, suspended or discontinued at any time.

⁽⁴⁾ Represents total cumulative share repurchase authorizations in effect, less cumulative purchases, at the end of each period presented.

Item 5. Other Information

Resignation of a Director; Reduction in Board Size

On April 30, 2026, Atish Shah notified the Company of his decision to not stand for reelection to the Board of Directors at the Annual Meeting. Mr. Shah’s resignation was not due to any disagreement with the Company or its management with respect to any matter relating to the Company’s operations, policies, or practices. With Mr. Shah’s resignation, the Board of Directors voted to decrease the number of seats on the Board of Directors from eight (8) to seven (7), effective as of the final vote of the shareholders at the Annual Meeting.

Appointment of a Director

On April 27, 2026, the Board of Directors appointed Charles Protell to the Board and nominated Mr. Protell for election by the shareholders at the Annual Meeting to continue his service as a director.

Insider Trading Arrangements

None of our officers or directors, as defined in Rule 16a-1(f) of the Securities Exchange Act of 1934, adopted, modified, or terminated a “Rule 10b5-1 trading arrangement” or a “non-Rule 10b5-1 trading arrangement,” as defined in Item 408 of Regulation S-K, during the three months ended May 5, 2026.

 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's third fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
